

What's Going On Inside the Brains of our Children?

Date: November 3 **Where:** Rama Community Center: the MASK

Time: 8:30 a.m. sign-in; 9 a.m. - 4 p.m. seminar

Cost: Free event with snacks and lunch provided

Join us for a day about understanding our children's development - from emotional connections to making sense of sensations, social interactions, reading, writing and planning. This can help us support their amazing journey!

Who is Invited?

Parents (and their children), grandparents, other supportive adults, day care providers, professionals and teachers are all most welcome!

Who is sharing information?

Occupational Therapists and Arts-based Registered Psychotherapists from Aptus Treatment Centre and Aquilla OT Services.

What will the day look like?

We will learn about child development in 4 stages:

1. Sensory processing and early emotional connections
2. Development of posture, gross motor skills and coordination
3. Development of fine motor and visual motor skills
4. Development of regulation, school related skills and executive functions (for example, impulse control and planning)

For each stage, we will have activities for the participating children to support their development.

To Register

Contact Chochi Knott of Anishinabek Nation with the number of people coming with you (including children)
Tel: (705) 657-9383 Email: chochi.knott@anishinabek.ca
