

GEORGINA
ISLAND

Attention Community Members of Georgina Island

This is a reminder of the **Boil Water Advisory** is still in effect. People using the community water supply must boil their water first. Water must be brought to a full boil for at least one full minute, if you are going to use it for any of the following: drinking, cooking, making juice or infant formula; washing fruit and vegetables; making soup, tea or coffee or ice cubes.

Construction will begin on the Water Plant this spring. The engineered specifications are finished and a contractor has been awarded the tender. Should you have any questions or concerns regarding the Water Plant Project, please contact Benson Big Canoe at 9059090380 or by email at benson.bigcanoe@georginaisland.com

Thank you for your patience and cooperation

Boil your water until you receive official notice that this is no longer required!
