

# Bird Construction Seeking Interest in Employment and Subcontracting Opportunities for the Construction of the new OPG Clarington Campus

In October 2021, Ontario Power Generation (OPG) awarded Bird Construction the design phase of the Engineering, Procurement and Construction contract for OPG's Clarington Corporate Campus. OPG announced in 2019 it would consolidate all non-station-based staff at one location: a newly constructed headquarters adjacent to the existing Darlington Energy Complex in Clarington.

While still in the engineering and design stages, Bird is reaching out to local Indigenous communities, including [Chippewas of Georgina Island](#) First Nation, to seek interest in direct employment opportunities for the construction of project. The project will require labourers, apprentices, trades people, supervisors and managers.

Bird is also seeking interested Indigenous community member owned businesses for sub-contracting opportunities in the construction and various support activities required during construction.

Chippewas of Georgina Island First Nation Contact:

**Rachel Big Canoe,**

**Economic Development Officer**

Email: [Rachel.bigcanoe@georginaisland.com](mailto:Rachel.bigcanoe@georginaisland.com)

Phone: [705-437-1337](tel:705-437-1337) ext. 2224

Construction planning to  
commence in late 2022.

If you are interested in direct employment or if you have a business and are interested in sub-contracting, please send your resume or business summary to the following.
